# ART PORTOFOLIO

# HI, MY NAME IS LINH

And the world of art has been fascinating to me since I was a kid. Self-learning different technique & material of art since the age of 6 like oil pastel, watercolor, paper crafting and many more. I've never been good at words, so visual arts are my best outlet for expressing myself, emotion and perception of the world. My art is the combination of my emotion and the influenced of the fantasy world come from different novel, comic & manga I read.
